PROFESSIONAL SUMMARY

Electrical and Electronics Engineering student and Full-Stack and Desktop Application Developer with experience in building scalable web and software applications using React.js, Node.js, Firebase, Supabase, and Electron.js. Proven ability to develop ERP and CRM systems, deploy real-time applications, and convert web applications into cross-platform desktop software. Experienced in working on automation-based systems such as EaseMilk, integrating software solutions with real-world applications. Strong problem-solving skills with a focus on performance, usability, and scalable system design.

TECHNICAL SKILLS

Programming and Technologies: React.js, Tailwind.Css, Node.js, Express.js, Electron.js, Authentication Systems

Databases and Backend Services: Firebase, Supabase

Tools and Platforms: Git, GitHub, Visual Studio Code, Vercel, Netlify

Soft Skills: Problem Solving, Team Collaboration, Time Management, Adaptability

Languages Known: Tamil, English

PROFESSIONAL EXPERIENCE

Software Developer Intern

Jun 2025 - Present

Azhizen Solutions

Namakkal

- Engineered and contributed to multiple **product-based software solutions**, including web applications, desktop software, and automation-integrated systems.
- Developed and enhanced **EaseMilk**, an automation-driven milking machine platform, building responsive web interfaces and integrating real-time system interactions.
- Architected and implemented key modules for a **scalable ERP and CRM application**, enabling efficient business process management and structured customer data handling.
- Transformed web applications into **cross-platform desktop software (.exe)** using Electron.js, implementing offline capabilities and system-level integrations.
- Worked with real-time databases and authentication systems, optimizing data flow and improving application responsiveness.
- Collaborated with development teams to deliver **production-ready applications**, following structured workflows and deployment practices.

Technologies Used: React.js, Tailwind CSS, Node.js, Firebase, Supabase, Electron.js, REST APIs

PROJECTS

SAVS Tech E-Commerce Platform

Mar 2026 - Present

Designed and developed a scalable e-commerce web application with modern UI/UX and real-time user interaction capabilities.

- Implemented secure authentication, dynamic product catalog management, and cart functionality to support seamless user transactions. Ensured
- Optimized frontend performance and ensured responsive design across devices, deploying the application on a cloud platform for high availability.

Technologies Used: React.js, Tailwind CSS, Firebase, Vercel

Azhizen ERP and CRM Software Application

Dec 2026 - Present

Architected and developed a full-stack ERP and CRM system for managing business operations and customer relationships in a unified platform.

- Designed scalable modules for data management, authentication, and real-time processing using modern backend services.
- Transformed the web application into a cross-platform desktop software (.exe) using Electron.js, enabling offline accessibility and enhanced system integration.

Technologies Used: React.js, Tailwind CSS, Supabase, Electron.js, REST APIs

EDUCATION

Bachelor of Engineering in Electrical & Electronics Engineering | CGPA: **7.9** | Expected 2027 | K.S.R. College of Engineering, Tiruchengode

Relevant Coursework: Database Management Systems, Web Development, Software Engineering

ACHIEVEMENTS & LEADERSHIP

- NCC 'A', 'B', and 'C' Certificates :** Successfully completed all levels of National Cadet Corps training, demonstrating leadership, discipline, and teamwork. Actively participated in structured training programs, drills, and organizational activities requiring high levels of coordination and responsibility.
- PRASKLA Technology Bootcamp / Hackathon (2025):** Selected participant in a competitive technical bootcamp and hackathon, gaining hands-on experience in real-world problem solving, collaborative development, and rapid prototyping of software solutions.
- Asia Book of Records Recognition (2023):** Contributed to a 277-hour continuous virtual awareness program on millet education, showcasing commitment, endurance, and active participation in large-scale coordinated initiatives.
